

Model : Automatic Auger filler Machine (2 lines 2 filler)

Application

This is a automatic linear filling machine designed to fill all kinds of powder product into different shape and size rigid container like bottles, cans, Jars etc. Featured with good price ,stable performance ,high reliability and easy to operate.

Technical Specification

Power supply	----- 3P AC208-415V 50/60Hz	3P AC208-415V 50/60Hz
Weight	----- 240kg 400kg	
Hopper Volume	----- 45L 85L	
Total power	----- 2.0Kw 2.6Kw	
Model	----- DH-Q1-S100 DH-Q1-S160	
Overall Dimensions	----- 1185×940×1930mm 2000×1050×2030mm	
Filling weight	----- 1 - 500g 1 - 2000g	
Filling accuracy	----- ≤ 100g, ±1.5%; 100 - 500g, ±1%	≤ 100g, ±1.5%; 100 - 500g, ±1%; 500 - 2000g, ±0.5%
Filling speed	----- 50 - 70 bottles per min	50 - 70 bottles per min
Air supply	----- 6 kg/cm2 0.05m3/min	6 kg/cm2 0.05m3/min
Working position	----- 2 lines + 2 fillers	2 lines + 2 filler
