

Automatic Powder Packing Machine TH-280P

Suitable for packing milk powder, milk tea powder, protein powder, grain powder, nutrition powder, soy milk powder, condiment, spices, herbal powder, medical powder, chilli powder, coffee powder, curry powder, corn starch, stevia powder, yoghurt powder, cocoa powder, flour, starch, chemical powder, etc.

Features:

1. All the work of bag making, auger filler measuring, product filling, sealing, counting can be done automatically.
2. Computer control system, photoelectric tracking, high reliability and intellectualized degree.
3. Equipped with fault display system, easy to operate and maintain.
4. Make punching blade (round/ euro hole) and linked bags device after customer's request.
5. Machine body and all food touching part are made by stainless steel.
6. Can adjust the bag length on the computer screen of the machine, different bag width need to change the bag former mould on the machine at some extra cost.
7. If filling weight range is too vast, need to change the measuring system mould (screw), to achieve more accurate weight.

Parameter:

Model	TH-280
Packing speed	10-60 bags/min
Packing range	5-70ml
Film width	≤ 280mm
Making bag size	L: 50-150mm, W: 15-130mm
Packing accuracy	≤ ±1%
Power	2.2KW
Power supply	AC220V, 50/60Hz
Seal type	3/4 sides seal, central seal
Net weight	280kg
Machine dimension	L1000 × W800 × H1800mm
