

## *JTF-1000 Powder, Granule Filling Machine*

This machine is mainly controlled by mechanical, electrical control, conveyor belt, photoelectric detection, powder filling device, a bottle body, a touch screen. The powder or granule feeder can choose by you. This machine applies for food, pesticides, cosmetics, pharmacy industries of the powder, granule product automatic filling.

### **Technical parameters:**

- ◆ Filling volume : 10g~1000g
- ◆ Measure precision :  $\pm 1\%$
- ◆ Production capacity :  $\leq 2000$  bottles/hour
- ◆ Air pressure : 0.6~0.8Mpa
- ◆ Amount of Air-consuming : 20 l/min
- ◆ Power supply : AC 220V/50Hz
- ◆ Power : 2Kw
- ◆ Machine weight : about 600Kg
- ◆ Machine dimension (L×W×H) : 2000mm×1000mm×2300mm
