

## *Metal Tube Filling and Sealing Machine*

The machine adopts pneumatic principle, suitable for sealing aluminum pipe and other metal pipe. Automatic pipe pulp filling and sealing machine is widely used in toothpaste, cosmetics and other daily chemical products.

### **Advantage:**

1. This machine is a high-tech product which successfully developed and designed by adopting advanced technology from abroad and strictly meet GMP requirement.
2. PLC controller and color touch screen are applied and made it possible for programmable control of the machine. It can perform the filling for ointment, cream jellies or viscosity material, sealing or tail folding, batch number embossing (include manufacture date) automatically.
3. It's ideal equipment for plastic tube and laminated tube filling and sealing for cosmetic, pharmacy, foodstuff and bond industries.

### **Technical Parameters:**

Filling Volume	1-120ml/Unit (Adjustable)
Filling Accuracy	$\leq \pm 1\%$
Capacity	2400-3600units/Hour (Adjustable)
Tube Diameter	$\Phi 10-28$ Mm
Dimension	1950×750×1850 (Mm)
Weight	About 900kg
Tube Length	50-180mm
Hopper Volume	40L
Equipped Motor	1.1KW
Machine Power	2kw
Power Supply	380/220 (Optional)
