

Multi Function Labeler

Multi-function labeler solve the problem about square bottles' labeling for two sides, three side and four sides, with simple and reasonable structure and easy maintain, ensure the accuracy and precision.

Features

- It adopts servo motor, human interface, PLC control system, easy maintenance and steady performance, providing easy access to all settings with range of parameters.
- It has automatic control and detect system to stop in case of lacking bottles, labels, bottle jam, reserved bottles, and lacking ribbon.
- Adopts opto-eletrical system to paste labels, with steady performance. The label position can be adjusted arbitrarily.
- label pre-feeding system makes the label feed stable, stick up smoothly and label position precise.
- Label-feeding adopt tensioning design to ensure that the coding quality, and can accurately control the length and uniformity of the label.
- The label-rolling and label pressing adopt different structure by different bottles shape to ensure the quality of the labeling.

Parameters

Applicable	Type	All kinds of Round bottles, square bottles
Capacity	Bottles/min	20-120
Power	W	120
Voltage supply	V	380V/220V according to customers' requirement
Pressure	MPA	0.6
Net dimensions	mm	2600*1350*1450
Weight	kg	380
