

Flat Surface Labeling Machine

The Flat Surface Labeling Machine can be an ideal facility used to stick paper or metal foil labels to a prescribed packaging container with an adhesive. The plane labeling machine can complete automatic positive and negative double-sided labeling. It is suitable for automatic labeling on the double-sided and round bottle circumferences of various flat and square products in the food, daily chemical, pharmaceutical and other light industry industries. Due to the advanced humanized touch screen, it ensures simple and intuitive operation, complete functions, and rich online help functions.

Designed for flat, the square and other irregular surface and curved bottle body of our Flat Surface Labeling Machine is better to ensure labeling accuracy and effect: double-side chain strap correction device to ensure the alignment of flat bottles and square bottles. Combined labeling machine with wide application range, it can switch between double-sided and circumferential stickers with simple adjustment.

Product specification:

Producing speed	50m/min
Labeling accuracy	±1mm
Label max width	130mm
Label max length	500mm
Label inner diameter	φ76mm
Label outer diameter	φ400mm
Machine size (LxWxH)	2000x100x1600 mm
Machine power	220V 50Hz 1500W
