

Cuff Shrinking Packaging Machine TF6540

Multi-row small bottles or multi-row square boxes in pharmaceutical, food, stationery, cosmetics, beverage and other industries. It can be used with automatic labeling machine.

Performance characteristics

1. Cuff packing.
2. Film packaging can reduce costs.
3. Special transmission structure to avoid bottle damage.
4. Special protective devices are installed at the seal, which can effectively prevent wrongcut packaging.
5. International leading cold cutting technology to reduce power consumption and ensure fast and firm sealing.
6. Unique hot air circulation system can save energy and make shrinkage more tight and beautiful.

Main technical parameters

Model	TF6540
Power Supply	220V;50-60HZ
Power	1.5KW
Electric Heating Plate Power	1.3KW(2pieces)
Applicable film	PE
Packaging speed	10-15 packs / min;30 packs / min.
Maximum Seal Size	650mm
Platform height	800+50mm(Adjustable)
Air pressure	5-7kgf/cm ²
Mechanical dimension	1950*1200*1900mm
Weight	210kg
