

Horizontal Tube Filling Machines

We are the chief Horizontal Tube Filling Machines producers in India. Our machines have compact designs and designed after making extensive market research and several researches at the R&D department. We lay a huge emphasis in maintaining the quality of the product we offer. Therefore we uphold quality right from obtaining the raw material till the dispatching of the product. Consequently our products are strong & sturdy and very durable. They have excellent performance and have low maintenance. Our Horizontal Tube Filling Machine is energy efficient and is very affordable. We guarantee that our products match the international quality standards. These machines are in huge demand in the cities like Allahabad, Amritsar, Salem, Noida, Bhavnagar, Ujjain etc.

Features:

- Compact designing
- Variable speed
- Cost-effective
- Energy efficient
- Excellent performance
- No maintenance

Applications:

- Pharmaceutical
- Cosmetics
- FMCG products
- Adhesives
- Craft colours and paints

Technical Specification:

Capacity	5 gm to 100 gms.
Speed	30 to 40 Tubes
Power	½ HP Motor
Net Weight	80 Kgs. (Approx)
Power	½ HP Motor, 220 V, 50 Hz, Single Phase.
M/C. Dimension	24" x 36" x 30" (Approx)
