

Double Head Automatic Shrink Sleeve Labeling Applicator Machine SLM-250D

Double head Shrink Sleeve Labeling Machine contains the function of bottle labeling and cap labeling, which reduce the customer's cost. It also improve production efficiency and reduce equipment space.

Shrink sleeve label machine is mainly for PVC, PET, OPS label. double label feeding tray, microcomputer control automatically, automatic detection, automatic positioning, label change quickly.

Double head sleeve labeling machine is suitable for all kinds of bottles, such as round bottles, square bottles, flat bottles and cup shaped bottles.

Main technical parameters of the equipment:

1. Voltage: Host machine; AC220V, 50/60HZ, 3KW, single-phase
2. The standard length of label is 300mm and the speed can be adjusted accord to customer's requirements. The speed will be faster if the label is shorter.
3. Diameter of bottle body: ϕ 30mm- ϕ 120mm
4. Length of label: 200mm
5. Thickness of label: 0.045mm
6. Material of label : PVC、 PET、 OPS

Parameters:

Model	SLM-250D
input power	3.3kw
input voltage	3,380/220VAC
production efficiency	2*300bottle/min
size of host machine	L3200mm*W1200mm*H2070mm
applicable diameter of bottle body	28-125mm
applicable length of label	30-250mm
applicable thickness of label	0.03-0.13mm
applicable internal diameter of paper tube	5-10 free to adjust
Material of label	PVC PET OPS
