

DZH-120P Automatic Horizontal Cartoning Machine

The automatic horizontal cartoning machine is a high-tech product integrating light, electricity, gas and machine. As a result, the equipment performance and work efficiency have been greatly improved, the requirement of fast boxing is realized, and the stable and reliable state is still maintained during fast operation.

This model is suitable for automatic cartoning in food, medicine, cosmetics and other industries. Online material detection; manual folding and transmission (automatic folding of 1-4 folds); automatic expansion of the carton, forming and transmitting, and the material and the folded manual are loaded into the carton together; and automatic batch number pressing, For complicated packaging processes such as paper tongue sealing at both ends, a hot melt glue machine system can also be added.

Application:

1. International famous brand of electrical component such as PLC touch screen, frequency inverters, etc.
2. Adopt human-machine operation system.
3. Automatically stop when machine is overload.
4. Automatically reject lacking of package product and leaflet.
5. Automatically display trouble, Alarm and count finished products.
6. Stable performance, operation is easy.

Specifications:

Model		DZH-120P
Productivity		30-150boxes/min Base on carton size
Box	Quality requirements	250-350g/m ²
	Dimension range (L*W*H)	(70-200)X(30-80)X(15-60)mm
Leaflet	Unfolded Leaflet specification	(80-230)X(90-170)mm
	Fold range	(1-4)fold
Compressed air	Working pressure	≥0.6Mpa
	Air Comprese	120-160L/min
Power supply		380V 50Hz
Motor Power		1.5KW
Dimensions(LxWxH)		3400X1200X1800 mm
Weight		1200KG
