

Automatic Multi-channel Electronic Counting Machine SN-series

The equipment is patent capsule intelligent high precision automatic capsule counting machine, model counting device can automatically achieve any number (odd, even, a precise number of tablets) bottle filling work. The structure of small size low noise and smooth operation, small and medium-sized pharmaceutical companies, health care products factory, hospital preparation room, the ideal number of grain automatic bottling equipment.

Main Feature:

1. Vertical orbit compensation count (patented technology), the number of grain accuracy can reach 99.9% to avoid the traditional vibration or rotation of a large number of errors in the precision of the error.
2. Vertical orbit compensation count (patented technology), to achieve the number of bottling capsules quickly set all the figures in the same type of capsule, not need to replace the mold is very fast and convenient.
3. Host uses frequency conversion speed regulation can be soft start speed regulation sensitive, reliable and stable, and can bear large start-up torque.
4. The bottle conveyor is a conveyor belt type, for customers late connection reserved interface can be quickly connected to the auxiliary equipment (bottle machine, capping machine, etc.).
5. Control the use of touch screen man-machine interface PLC programmable controller technology can quickly set various parameters.
6. Light control technology automatic detection of no bottle or bottle will automatically alarm, reduce the capsule waste to the lowest.
7. All the mould using a cylindrical pin positioning design to replace the mold can only take 5 minutes to install in place conveniently and quickly.
8. The contact parts of the drug use 304 stainless steel, in accordance with the GMP standard.

Technical Specifications

Product Model	SN-16S	SN-24S	SN-32S	SN-48S
Voltage	110V/220/380V 50-60Hz	110V/220/380V 50-60Hz	110V/220/380V 50-60Hz	110V/220/380V 50-60Hz
Motor Power	1200W	1500W	2200W	3000W
Production Capacity	20-80 bottles/Min	20-100 bottles/Min	40- 120 bottles/Min	40- 150 bottles/Min
Machine Weight	380KG	480KG	520KG	580KG
Applicable bottle	<=500ml round/square /Irregular bottle	<=500ml round/square /Irregular bottle	<=500ml round/square /Irregular bottle	<=500ml round/square /Irregular bottle
Product Application	Capsule, Tablet, Candy, Button, etc	Capsule, Tablet, Candy, Button, etc	Capsule, Tablet, Candy, Button, etc	Capsule, Tablet, Candy, Button, etc
Machine Dimensions	1400*1400*1560M M	1400*1400*1560M M	2100*1450*1560M M	2100*1450*1560M M
