3. While using manual model. There are pedal model and time-limit model for choice.
4. Nozzles can be lifted /lowered, manpower saving.
5. Piston like allocation to ensure precision.

### **Specifications:**

Dimension:	800mm(L)*750mm(W)*1745mm(H)
Voltage:	Single phase 220V、50Hz
Max. power:	4.5kw
Air pressure:	6kg/cm <sup>2</sup>
Max. stuffing capacity:	20g+0.1g (1color)
Filling Capacity:	1~14 ml/piece
Filling speed:	30~60 pcs/min.(the quantity of stuffing material affect the speed)
Filling nozzle:	12 pcs
Hopper volume:	20L double layers and oil removal heating
Height of the table:	620 mm
Filing precision:	±1%
Operator:	1 person
