

Fully Automatic Sauce Packaging Machine XY-60AJ

Packing machine:

1. The automatic sauce packing machine can automatically complete the products of fasteners conveying, measuring, filling, bag making, date printing, heat sealing and cutting etc.
2. Sealing type: 3 sides sealing (4 sides sealing, back sealing can be selected)
3. To ensure the same length of each bag, high sensitive electro-optical sensor system is provide to the realize automatic alignment on the packing film.
4. The packaging machine is equipped with a computer control system.
5. Use Mitsubishi/Delta PLC controller. Reciprocating film drawing, beautiful appearance, flat and smooth vertical sealing, convenient adjusting, correct testing. Temperature error range is controlled below 1 degree by PID adjusting.
6. The electronic and pneumatic components of the machine are all supplied by reliable supplier cooperating with us for several years, which can ensure the quality of machine and save the cost of purchase meantime.
7. The bag size and packaging number can be customized by customers.
8. We also can help you with purchasing the packing film, need your design of the film.

Application rang of packaging:

- Suitable for 3-150 ml liquid/sauce products, like Tomato, Oil, Shampoo, Jelly, Juice, Syrup, Sauce, Ketchup, Shower gel so on.
- Packaging Material: Laminated heat-sealing plastic film. Like OPP/OPP, OPP/CE, PET/PE ETC.
- Bag type: Pillow back sealing, 3/4 sides sealing, hole punch, bag linking, easy tear etc.
- Optional Device: Date Coder, Air-Filling Device, Punching Device. Linking Bag Device.

Parameters:

Model	XY-60AJ
Voltage	220V 50HZ
Power	1900 W
Dimension	1300×850×1700mm
Packing range	3-300ml
Film width	Max. 300mm
Formed bag size	L: 30-180mm, W: 30-140mm
Weight	400 Kg
Packing speed	30-60 Bags/Min
Optional accessories	Date printer, punching device, linkage device etc.
Note	The machine needs an air compressor and it is recommended that you purchase from yourself country.
