

Semi Automatic Perfume Filling Machine

Features

1. Negative pressure suction fluid filling, product filling capacity based on liquid level height;
2. Equipped with wheel, convenient to move.
3. Suitable for glass bottle, or plastic bottles that is not easy to be out of shape after vacuum zing.
4. Convenient adjustment, operation and maintenance.

Technical Details

Item	Specification	Remark
Import cylinder	Germany FESTO	
Material	Material touch part is SS 304	Outside adopt SS 304
Filling volume range	25-250 ml	50-500ml
		100-1000ml
Filling Speed	20-40bottles/min	
Filing Precision	±0.5%	Drip-tight
Air Pressure	0.5-0.8MPa	
Working Pressure	0.2-0.5MPa	
Air Consumption	0.05m ³ /min	
Weight	35kg
