

14-head Combination Weigher AC-14

Technical characteristics:

1. Select the best combination immediately from diversified weight combination by computer calculation, it is perfect combination of high precision and high speed. ;
2. High precision data-type weighing sensor realizes precise weighing. ;
3. Liquid crystal screen operating system in multiple languages such as Chinese and English ,etc. ;
4. IP65 grade water-proof and dust-proof design. It's clear and sanitary with all stainless still parts. Full sealed design prevents accumulation of material and facilitates cleaning.
5. It can adjust the opening and closing speed of hopper door according to the feather of items to be weighed, and prevent crushing and blocking of material.
6. With powerful digital automatic counting function. It can record the index for each batch such as total bag number; pass rate and difference of single bag, etc.
7. Optional devices: triglyph balance ball, suction hopper, printing device, tolerance sorting device.

Application:

All kind of grain material, sheet material and abnormity material which such as candy, melon seeds, chips, peanuts, nettle, preserved fruit, jelly, biscuit, confect, compete foodstuff, dilatants foodstuff, hardware and plastic can be weighed by the ration.

Technical parameters:

Type	AC-14
Measure number	14
Range of single weighing	10-2000g
Quantity precision	0.1-1.5g
Average tolerance of single bag	0.2-0.6g
Weighing speed	120 bags/min
Hopper capacity	1300ml
Hopper type	Double row without memory bucket
Preliminary programs	9 9 species
Net/gross	420/495Kg
Overall size	H1680xW1210xH1140mm
