

HG Semi-Auto Empty Bottle Bagging Machine (HBA Series)

INFORMATION

1. Specially designed to pack empty plastic bottle. Able to save large labor cost and makes production and transportation of bottles convenient.
2. Stainless steel machine body reduces bottle abrasion. Elegant in appearance and compact in construction.
3. Equipped with HMI, providing quick adjustment on parameters.
4. Bottle feeding quantity is accurate. Motion of pushing bottle forward is smooth and stable.
5. Bags are sealed by auto heating device. Sealing is secure and neat.
6. This machine is able to pack both round and square bottle.

SPECIFICATION

機 型 Model		HBA-1100
MACHINE 主 機	長×寬×高(mm) Dimension(L x W x H)	3700*5000*2100
	重 量 Weight	550kg
	電 源 Electric Power	Single Phase 220V / 1KW
	氣 源 Pneumatic supply	0.8Mpa
	速 度 Speed	100 BPM
	容 量 Capacity	200-5000ML
CONTAINER 容 器	材 質 Material	塑膠 Plastic
	形 狀 Shape	圓、方形 Round, Square
