

HDL-160F Powder Packaging Machine

Product description:

Suitable for non-stick, such as liquidity fine powder, soybean meal, flour, milk powder, pepper, feed, coffee powder, powder materials packaging.

Features:

- 1, The machine is featured with compact structure, durable, logical and Precise.
- 2, It adopts light sensor control system, and is featured with reliable, stable performance.
- 3, Using VVVF, operation much more stable, low noise, with low malfunction.
- 4, It can finish automatically all processes, such as measuring, filling and bag marking.

Specifications:

Type	HDL-160F
Film width	320mm
Bag length	30-200mm
Bag width	50-150mm
Weasuring range	50-250ml
Film roll diameter	Max.300mm
Pakaging rate	5-60bag/min
Power	220v 50/Hz 2.4KW
Packing film thickness	0.04-0.08mm
Machine weight	About 350KG
Packing Meterial	0PP/OPP/PE/CE,MST/PE/PET/
