

LONGMAKER

LLD-F5000L Vertical Screw Packaging Machine

LLD-F5000L Vertical screw packaging machine made of carbon steel, and in contact with the product surface of stainless steel 304. The machine is used for packaging powdered milk, rice flour, sugar, coffee, monosodium glutamate, dyes, granular powder additives, etc. Speed Packing: (package / hour) 400-600

Device name:	LLD-F5000L Vertical screw packaging machine 10g-5000g
Equipment description:	Screw feeding, linkage control, screw measurement
Applicable scope:	Easy to flow or the flow of powder granular materials: milk powder, rice flour, sugar, coffee, MSG, dyes, powder granular additives, etc.
Equipment size: (m)	0.9×0.8×1.8
Equipment material:	Carbon steel, material contact part 304 stainless steel
Equipment weight:	280Kg
Weighing range: (g)	500-5000g
Packing speed: (bag / hour)	400-600
Weighing accuracy:	$> 1000 \leq \pm 0.5\%$
Power supply:	AC380V $\pm 10\%$ 50HZ 2KW/h
Equipped with gas source:	(flow)0.1m ³ /min (pressure)0.4-0.6Mpa
Note:	Need to screw on the other computer
