

DXD-100Q Automatic Inner & Outer Tea Packing Machine

FEATURES

1. Equipped with antipollution and dust proof device.
2. Adjustable measuring cup adjust the measuring under the case of downtime.
3. Sealing part: roller spends process is special designed and the effect of sealing is very well.
4. The function of automatic counting is available for customers to pack.
5. At the ends of cross sealed of inner and outer bags have oiling holes, regular oil guarantees that the operate lubricating, adequate lubrication can reduce the failure rate and improve the machine life.
6. The feeding structure inside the machine beyond the traditional feeding form, greatly improve the rates of the threads and tags which make the rates of threads and pre-print on about 98-99%

TECHNICAL PARAMETER

Model		DXD-100CQ
Sachet Type		Three Side Sealing
Output Capacity		30-40 bag/min
Tag Size		L 40-55mm W 20-24mm
Line Length		155mm
Sachet Size	Inner Sachet	L 50-80mm W 50-70mm
	Outer Sachet	L 80-120mm W 70-90mm
Filling Volume		3-15ml
Voltage		220V/3.8KW
Weight		450KG
Overall Dimension		900*1100*2000mm
