

## Flow Packing Machine (F-Z1500)

### Main Feature:

1. This is most advanced high speed packing machine according to Bosch.
2. Three Yaskawa servo motors, Siemens PLC.
3. Double Paper rollers, automatic paper splicer device.
4. Equip with heating pipe in the feeding disc to keep the candy in dry state in case of humidity
5. European machine designing structure, easy and convenient to operate and maintenance.
6. High speed packing, stable running condition, and long service life.
7. Flat feeding Disc, well feeding performance and low empty packing rate.

A quick change of product dimensions is possible by exchange of the wrapping units.

### Technical Parameters:

Model	F-Z1500
Packing Type	Flow Pack
Packing Speed	50-1500pcs/min
Packing Product	Hard candy, soft candy, and similar products
Packing Shape	Round Slice, Spherical, ellipse, waist round, oblong.
Total Power	6.5KW
Voltage	220-400V,50/60HZ,single or three phase available
Weight	1200kg
Outside Dimension	2876*1378*1700mm
