

Automatic Liquid Packaging Machine AS 2000

It is widely used for packing various kinds of liquid. Such as pure water, milk, soybean milk, fruit juice, beverage, soy sauce, vinegar and wine. It uses single lay PE film for packaging material. It is automatic for ultraviolet radiation, sterilizing bag forming, code printing precisely filling, and synchronization with sealing and cutting. This series machines have been long-tested, and their performance gained a very high reputation from our clients because of the simple operation and smooth work with low failure rate.

Technical Details
