

## ***Fourteen Heads Weighing Filling Machine BS-A1-14L1.6BS-A1-14L2.5***

### **Main performance and structural features:**

- \*Select the best combination immediately from diversified weight combinations through computer with perfect combination of high precision and high speed.
- \*High precision data-type weighing sensor realizes precise weighing.
- \*Liquid crystal screen operating system in multiple languages such as Chinese and English, etc.
- \*IP65 grade water-proof and dust-proof design. It's clean and sanitary with all stainless steel parts. Full sealed design prevents accumulation of material and facilitates cleaning.
- \*It can fine the opening and closing speed of hopper door according to the features of items to be weighed, and prevent crushing and blocking of material.
- \*With powerful digital automatic counting function, it can record the index for each batch of product such as total bag number; pass rate and difference of single bag, etc.
- \*Optional devices: triply balance ball, suction hopper, printing device, tolerance sorting device.
- \*Strong compatibility and more compact structure with it directly installed on the upper part of packing machine.
- \*Fast return for investment by largely saving large quantity of raw material and labor cost.
- \*Net weight: 300kg; Gross weight: 370kg
- \*Voltage: 220V; Power: 1500W; Frequency: 50/60HZ; Rated current: 9A.
- \*Out package dimension(mm): 1400(L)×1130(W)×1120(H):

**Technical parameter:**

<b>Model</b>	<b>BS-A1-14L1.6</b>	<b>BS-A1-14L2.5</b>
Measuring range	3-6000g	3-6000g
Accuracy	±0.1-2.5g	±0.2-3g
Max speed	120bags/min	120bags/min
Hopper volume	1.6L	2.5L
Display	9.7 inches touch screen	9.7 inches touch screen
Options	Pattern/aggregate hopper	Pattern/aggregate hopper
Parameter	99 kinds	99 kinds
Power requirements	AC110V/220V 50Hz/60Hz	AC110V/220V 50Hz/60Hz
Packing dimension	114*114*123cm+109*85*86cm	114*114*123cm+109*85*86cm
Net weight	500kg	520kg
