

RH-200 Puffed Food Automatic Packaging Machine

Features:

1. The double-belt servo stretch die is adopted, which has a large stretch film force, and the packaging bag is well formed, which is more beautiful and the belt is not easy to wear.
2. Servo control is adopted to achieve high-precision positioning and accurate size.
3. Using an external film release mechanism, packaging film installation is simpler and easier.
4. The deviation adjustment of the packaging bag only needs to be adjusted on the touch screen, and the operation is simple.
5. Puffed food automatic packaging machines can be used for white sugar, rice, flour, etc.

Technical Parameter:

Model	RH-200
Type	automatic packaging machine
Bag length	80-150m(L)
Bag width	50-200mm(W)
Max width of roll film	620mm
Packing speed	5-60bag/min
Air consumption	0.65mpa
Gas consumption	0.4m ³ /min
Voltage	220V/50HZ
Power	3.0KW
Dimension	(L)970mm×(w)1120mm×(H)1800mm
Machine weight	300kg
Packing specification	20-150g
