

FFB-L Standing Cutter Shrink Wrapping Machine

A new type of packing machine manufactured by Feifan, FFB-L is the nice equipment for shrink packing widely used in the area of chemical and daily articles. The end cutter is changed from traverse before to vertical now. This model makes the sealing at the side of the packing product so that end sealing and longitudinal sealing shaped formation U. This kind of sealing doesn't effect the printed design on the film and make the package be more beautiful. Because the products connecting directly with the packing machine and no need to change the direction from the production line, so it is much easier to connect with production line to achieve full automatic packing and small footprint.

Packing material: PVC POF and other material which we tested suitable for packing

Options: Date coding machine, film recovery system, auto feeding system, alcohol spray system, label sticker and so on.
