

BG-1(2,3,4,6)HZ Cups Vacuum Sealing Machine

8 Cups Vacuum Sealing Machine is mainly used in cup, box, bowl of milk, yogurt, instant noodles, lotus root starch, rice noodles, other food and beverage filling cap, it can also be used for other special-shaped cap.

Features:

1. The machine uses stainless steel body, the next cup, put cover, seal are completed in strict accordance with the requirements of food hygiene;
2. With automatic off cup, automatic cover, automatic sealing, automatic out cup function;
3. The use of imported CVT system, adjustable production speed;
4. The use of cam indexer, so that the next film positioning accuracy, the machine running smoothly;
5. Cover and seal at the same time to complete, the next film to move the cover film positioning accuracy has no effect;
6. Accurate secondary sealing, sealing pressure can be adjusted, good sealing strength;
7. Easy to operate and safe.

Technical Parameters:

Model	BG-1HZ	BG-2HZ	BG-3HZ	BG-4HZ	BG-6HZ
Yield (cup / hour)	500-800	1400-1600	2000-2400	3000-3200	4800-5300
Electric heating power	2kw / N	3kw / N	5kw / N	6kw / N	7kw / N
Rated pressure	0.6-0.7MPa		0.65-0.85MPa		
Vacuum pump	25		40		
Weight	350kg	450kg	550kg	650kg	750kg
Filling volume	100-350ml quantitative adjustable
