

DZ-500B Floor Type Vacuum Packaging Machine

DZ-500B floor type vacuum packaging machine adopts microcomputer program control. It can accurately set the control vacuum, sealing and other working procedures according to the needs. The machine has the characteristics of simple structure, stable performance, convenient maintenance, etc. Simply pressing the vacuum chamber cover can complete vacuuming, inflating (optional), sealing, printing, cooling and exhausting the whole process according to the set procedure. Items vacuum-packed can prevent oxidation, mildew, insects, and dampness to extend product shelf life.

The vacuum pump has a strong vacuum pumping capacity. The size of the vacuum chamber in the table is a standard size. If the customer has special requirements, we can customize it according to the customer's requirements.

DZ-500B floor type vacuum packaging machine is suitable for packing meat, sauce pickled products, aquatic products, seafood, vegetables, agricultural and sideline products, preserved fruits, grain, bean products, medicinal materials, and electrical appliances.

Main parameters:

Model	DZ-500/B
Machine size (mm)	745×570×960
Vacuum chamber volume (mm)	600×500×150(90)
Heat seal effective size (mm)	480×8
Vacuum pump (m ³ /h)	20
Motor power (kw)	0.9
Voltage (V)	110/220/240
Frequency (HZ)	50/60
Working cycle (times/min)	2
Gross weight (kg)	125
Net weight (kg)	98
Outer box size (mm)	800×630×1110
