

Semi Auto Powder Filling Machine Auger Metering Machine EW-50S

It is suitable for metering and filling powdered products such as milk powder, starch, seasoning powder, garlic powder, coffee powder, walnut powder and so on. Support to fill into plastic bag and bottle type.

Features

- ▼ Powder weighing machine, automatic weighing and stirring, to realize mixing and packaging of various powders with high accuracy.
- ▼ Excellent stainless steel funnel, high strength, not easy to wear, beautiful and hygienic.
- ▼ Using colorful touch screen, new production control system, high precision measurement control instrument
- ▼ It can be equipped with a screw feeder, sealing and feeding, and it is not easy to raise dust

Parameter

Type	EW-50S
Packaging weight	5~5000g
Accuracy	±1%
Power	AC 380V
Voltage	900W
Packing speed	10-25 bag/min
Machine weight	380KG
Machine size	1000 X 650 X 2000mm
Trade term	FOB, CIF, DDP are allowed. Near sea port is Guangzhou.
