

14 Head Multihead Weigher MK-A14-1-1

The 14 head multihead weigher has a weighing range of 10-2500g and a maximum packaging speed of 120bags/min when paired with the packaging machines. This multihead weigher is suitable for granular, chip, strip and irregular materials including candy, potato chips and more. In addition, the target weight is adjustable to provide customers with a versatile machine capable of packaging different products.

Features:

- An IP64 water and dust proof design is used. 304 stainless steel ensures the food hygiene and safety;
- Using a computer algorithm, the perfect combination for the target weight is quickly obtained from numerous combinations;
- A data statistics function allows for automatic recording of the total weight, total package counts, pass percentage and other indexes of each batch of packages.

Technical Parameters:

- Model: MK-A14-1-1;
- Weighing range: 10-2500g;
- Weighing accuracy: $\pm 0.5-3g$;
- Max speed: 120bags/min;
- Bucket volume: 2500ml;
- Drive model: stepper motor;
- Controller: 7 inch touch screen;
- Power: 220V/1500W/50 60HZ/10A;
- Size: L1720*W1120*H1130;
- Weight: 490kg.
