

Liquid Filling and Capping Machine

Brief Introduction:

- This machine is suitable for low viscosity liquid like cough syrup etc.
- It is with function of automatic liquid filling--cap feeding--cap closing.
- Capping head can be custom made for metal cap or plastic cap.
- Whole machine is controlled by PLC, and with touch screen operate system, it is stable and convenient in performance.

Can custom-made machine according to different product.

Parameter:

Item	Parameter
Speed	30-80Pcs/Min
Filling Range	20-250ml/100-500ml
Filling Accuracy	$\leq \pm 1\%$
Capping Accuracy	$\geq 99\%$
Air Pressure	0.4-0.6Mpa
Power	1.2Kw
Voltage	AC220V, 50/60Hz
