

Markotec labeling system

Box Corner Labeler

The model is suitable for various sizes of folded and filled carton boxes, with single-sided or double-sided folded corners labeling. General labels, transparent labels, or other tamper-evident labels can be applied.

Feature

- With servo motor driven, it can be adjusted with single or double folded corners, upper or lower folded corners.
- Standardized and modular design made maintenance easy.
- Colorful touch panel and PLC control system.
- The human-machine interface can set the synchronous tracking function, which is easy to operate.

Optional Accessories

- The labeler can be flexibly configured in IN-LINE / OFF-LINE.
- Various printer options (hot stamping, inkjet printer, thermal transfer printer, laser printers)
