## ZS-GTP1 Pressurized Hand Sanitizer Filling Machine

Compared with other pneumatic paste-filling machine, this one is with greater pressure and suitable thicker liquid like gel, honey, toothpaste, cream etc. We offer different filling range of this machine; you can choose the suitable one as your need. It is widely used in food, beverage, cosmetics and pharmaceutical industries.

## Technical Parameters:

Power Supply	110/220V 50-60HZ 5W
Filling Range	10-100ml/30-300ml/50-500ml/100-1000ml/500-3000ml/1000-5000ml
Filling Speed	10-15 bottles/min(based on filling material and volume)
Filling Accuracy	$\leq\pm 0.5\%$
Hopper Size	40L
Air Pressure	0.4-0.9Mpa
Filling Nozzle Size	OD10mm
Air Compressor Connector Size	OD8mm
Machine Weight	34kg
Machine Size	772*275*750mm
Package Size	480*525*615mm (Hopper) , 355*330*935mm (Machine)
Package Weight	15kg (Hopper) , 34kg(Machine)
