

Semi-automatic Powder Auger Filler DH-B1-25L / DH-B2-50L / DH-B3-50L

Semi automatic auger fillers are introduced as entry level fillers and for small run applications if full automation is not required. They offer similar characteristic as most auger fillers and come in various sizes to suit a range of applications. They are supplied mainly as stand alone or bench tops. These augers can measure and fill accurate weights for most free and non free flow products. They are suitable for free flow and non free flow powders, like milk powder, rice powder, coffee powder, solid drink, condiment, white sugar, dextrose, food additive, fodder, pharmaceuticals, agriculture pesticide, and so on.
