

WB-X4 4 Head Linear Weighers | Multihead Weighers in Packing Machine

This machine is suitable for quantitative packaging of white sugar, salt, seeds, rice, sesame, MSG, chicken powder, milk powder, coffee, seasoning and so on powder/small granule products, which are uniform.

Usage and Features

This machine is suitable for quantitative packaging of white sugar, salt, seeds, rice, sesame, MSG, chicken powder, milk powder, coffee, seasoning and so on powder/small granule products, which are uniform.

1. PLC control system, color touch screen display.
2. Can weight various different products at the same time, to realize mixed products packaging.
3. Adopts stepless vibration loading system, make products more evenly and weighing scope bigger.
4. Realize remote monitoring and tracking on the machine through internet.
5. The parts touching products (storage hopper, vibration plate, weigher hopper) are easy to dismantle, and convenient to clean.
6. This machine is made of stainless steel, clean and health, meets requirements of GMP.

Technical parameter:

Model	WB-X4
Weighing Range	20g -2000g
Weighing Accuracy	0.2-2g
Weighing Speed	10-60 time/min
Max Weighing Volume	3000ml
Parameter Preset Number	20
Max Material Types	4
Power	800 W
Power Supply	1ph 220V, 50/60Hz
Machine Dimension	L1010 × W960 × H1200mm
Machine Weight	200kg
