

## *HZGF-1500 Semi-automatic Tea Granule Weighing Filling Machine*

HZGF-1500 Granule filling machine is designed to fill Granule, such as pet food, grains, tea and so on.

### **Features:**

1. Filling speed and filling volume is easy to adjust by automation control system.
2. When the granule filling machine is working, the feeding of materials is driven by two different vibration frequencies, which can ensure the accuracy, and improve the feeding speed at the same time.
3. The whole body is made of stainless steel, which is stable and reliable performance.
4. The machine complies with CE certification.

### **Parameter:**

<b>Model</b>	<b>HZGK-1500</b>
Voltage	AC220/110V
Power	150W
Filling Accuracy	±2g (Depending on the items)
Hopper	30L
Filling Speed	500-800bph
Filling volume	30-2000g
