

## Doypack Powder Granule Packing Machine Qualipak DP-500

It is a precision and versatile piece of machine that guarantees smooth packaging of powdered and granulated products in user friendly doypack pouches.

A fine-tuned series of automated processes is executed by Doypack Powder Granule Packing Machines to competently package powdered and granular products.

### Technical Specification

Model	Qualipak DP-500
Packing Speed	20-50 bags/min (Depending on product)
Bag Size Range	(W) 100-200mm, (L) 150-300mm
Filling Range	5-1500g (Adjustable)
Power Supply	220V, 50Hz
Power Consumption	2.5kW
Air Pressure	0.6MPa
Air Consumption	0.4m <sup>3</sup> /min
Machine Dimensions (LxWxH)	1200x1600x2000mm
