

Solid Ink Coding Band Sealer FRD-1000C

FRD-1000C Solid-ink coding band sealer is a new model of automatic plastic film sealing machine, which integrates color printing, sealing, continuous transmission of products, with clean and bright pattern on the sealing part, color selectable, instant printing and instant dry, and convenient to change the characters.

Parameter

Type	solid ink band sealing machine
Material	stainless steel
print type:	solid-ink printing
sealing width:	6-12mm
sealing speed:	0-12m/min
temperature range:	max 300degree C
Net weight	35KG
Gross weight	39KG
Dimension	1060*640*970(mm)
Conveyor load:	max. 3kg
power supply:	220V 50HZ(can be customized)
Power Consumption:	750 W
Automatic grade:	semi-automatic
Driven type:	electric
