

TFP-CCF2 Fully Automatic Coffee Capsule Powder Filling And Sealing Machine

The fully automatic coffee capsule powder filling and sealing machine efficiently fills coffee capsules with the desired amount of powder and seals them, ensuring a convenient and mess-free brewing experience. This automated process saves time and guarantees consistent quality for a perfect cup of coffee every time.

The fully automatic coffee capsule powder filling and sealing machine offers a convenient and efficient solution for filling and sealing coffee capsules. With its automated functions, it ensures consistent and precise filling, reducing manual labor and increasing productivity.

Applications

The fully automatic coffee capsule powder filling and sealing machine is a state-of-the-art device designed to efficiently fill and seal coffee capsules using powdered ingredients. This advanced machine streamlines the process, ensuring precise and consistent filling while maintaining the freshness and quality of the coffee.

Technical Parameters

Machine Model	TFP-CCF2
Application type	Preformed cups/capsules
Filling heads	2 auger fillers
Production capacity	Max 1200pcs/min
Gas consumption	100NL/min
Gas pressure	0.6-0.8mpa
Power supply	220/110V;1.5Kw
Machine dimension	1000x1000x1650mm
Machine weight	300Kg
