

DCS-2A-2 Automatic Powder Filling Machine

The Model machine could do work of measuring, bottle holding and filling, etc, it can constitute the whole set can filling work line with other related machines, and suitable for filling kohl, glitter powder, pepper, cayenne pepper, milk powder, ice flour, albumen powder, soy milk powder, coffee powder, additive, essence and spice, etc.

Features

- Stainless steel structure, level split hopper could be washed easily without tools.
- Servo motor drive auger.
- Servo controlled turntable with stable performance.
- PLC, touch screen and weighing module control.
- With adjustable height-adjustment handwheel at reasonable height, easy to adjust the head position.
- With pneumatic can lifting device to assure the material not spilling out when filling.
- Weight-chosen device, to assure each product be qualified, so to leave the latter cull eliminator.
- To save all products' parameter formula for later use, save 10 sets at most.
- When changing the auger accessories, it is suitable for materials ranging from super fine powder to small granule.

Technical Parameters

Container Size	φ 20-85mm, H 10-150mm
Filling Weight	1 ~ 500g
Filling Accuracy	≤ 100g, ≤±2%; 100 ~ 500g, ≤±1%
Filling Speed	15 - 60 bottles/min
Power Supply	3P /220 - 415V 50/60Hz
Total Power	1.8KW
Air Supply	6kg/cm ² ; 0.05m ³ /min
Total Weight	250Kg
Overall Dimensions	1000x720x1800mm
Hopper Volume	35L
