

LK-307 Multi-Function Sugar Paste Packing Machine

Multi-Function Sugar Paste Packing Machine suitable for liquid paste materials in food seasoning, beverage, medicine, chemical and other industries. Such as sauce, oil bag, honey, shampoo, cosmetics and other materials packaging machine.

1. Malfunction self-check system, it is easy to check error.
2. High sensitivity photoelectric colour batch checking. It uses digital input to set cutting position, which is more accurate.
3. Positioned stop system, avoids bonding with knife and waste of film.
4. Driving system is clear, running is reliable, maintenance is convenient
5. When it cuts product accidentally it will rotate automatically, a restart of machine will keep the machine runs.
6. When the film runs out, the machine will stop.
7. For certain needs, it can fulfill automatically product length check and packing film length change, no need to set any parameter.

Product Parameters

Material	stainless steel
Filling range	10-100ml; 20-200ml; 30-300ml;50-500ml;100-1000ml
Function	weighing, filling, sealing and cutting
Working speed	about 18-26 times/min
Sealing type	3 side sealing and back sealing type
Formed pouch width	30/34cm
Available coiled material	plastic film, filter paper, aluminum foil, laminated film, non-woven fabrics etc
Voltage	AC 220V/110V 50-60Hz
Power	500W
Dimension	1170*540*1550mm
Weight	160kg
