

SA-DP Doypack Packaging Machine

The SA-DP Doypack Packaging Machine is a highly efficient solution designed for filling ready-to-eat pouches with precision. This advanced packaging machine ensures reliable and fast packaging for various products, including legumes. It is perfect for businesses seeking a robust legumes packaging machine. The machine's design prioritizes ease of use and high output.

- Suitable for zipped, pillow, and doypack packs.
- High production capacity for diverse products.
- Easy to operate for businesses of all sizes.

Technical Specifications:

Width	2256 mm
Length	2006 mm
Height	1530 mm
Weight	SA-DP 230A-S 1400kg / SA-DP 260A-S 2000kg
Production Speed (Number/Min)	20 ~80 bags per minute, depends on application
Package Length	SA-DP 230A-S 100mm - 350mm / SA-DP 260A-S 100mm - 400mm
Package Width	SA-DP 230A-S 80mm - 230mm / SA-DP 260A-S 130mm - 260mm
Power Consumption	SA-DP 230A-S 4,5 Kw / SA-DP 260A-S 5 Kw
Operating Voltage	380V 3 Phases 50Hz
Air Consumption	300 Lt/Minute
