

## Chain Conveyor

The PVC chain conveyor belt is an efficient and durable transport solution, designed with food-grade materials suitable for industries such as food processing, pharmaceuticals, and packaging. Featuring a robust, adjustable-speed motor, this conveyor provides smooth and stable transfer for various products while ensuring easy setup and long-term reliability.

### Key Features:

- **Food-Grade Materials:** Constructed with stainless steel and PU/PVC belt material, meeting hygiene standards for safe use with food and pharmaceutical products.
- **Variable Speed Control:** Adjustable speed range from 0 to 20 meters per minute for tailored operation to different production needs.
- **Durable and Stable:** Designed with wear-resistant and non-deforming materials to provide reliable, long-lasting performance.
- **Compact and Easy to Install:** Lightweight and simple to set up, making it suitable for tight spaces and quick installation.
- **Low Maintenance:** PU material provides excellent resistance to wear, reducing maintenance frequency and costs.

### Technical Specifications:

Parameter	Specification
Conveyor Speed Range	0–20 m/min (adjustable speed)
Motor Power	90W / 120W
Material	Food-grade stainless steel, PU/PVC
Conveyor Dimensions	Length: 1.5m, Width: 0.25m, Height: 0.75m
Belt Width	20 cm
Load Capacity	Up to 25 kg
Power Supply	220V, 50Hz
