

GPC-50+GPG-50 Automatic Folding and Four Sides and Corners Sealing

GPC-50+GPG-50 can automatically fold the top cover and seal the upper and lower of carton. The auxiliary wheels on both sides assist the machine to seal the box, which ensures that the adhesive tape will not be skewed. Immediately after the L-shaped corner push, the carton is conveyed to perform the four-corner sealing operation, which is simple and practical. This type of sealing machine is widely used in food, medicine, beverage, tobacco, daily chemical and other domestic and foreign industries.

FEATURES

- 600 cartons / h
- Machine parts are stable and durable
- Double motor
- Support 48/60/75mm tape
- Suitable for heavy boxes
- PLC automation program control

SPECIFICATIONS

MODEL	GPC-50+GPG-50
Forming and sealing speed	480-600 ctns/h
Carton size	L2750×W1900×H1580
Power supply	220/380V, 1φ -3φ, 50/60Hz
Applicable tape	W48mm/60mm/75mm×L1000
Machine size	L2750×W1900×H1580
Machine weight	580kg
