

JLS-250A Fully Automatic Sealing, Cutting and Shrinking Packaging Machine

Feature

- Integrate sealing and shrinking into one
- The sealing and cutting form is a horizontal top and bottom sealing
- The equipment occupies a small area and has a beautiful appearance.

Technical Specifications:

- Power supply: 380V 50Hz
- Power: 5.2KW
- Maximum sealing size: 380 x 260mm
- Maximum packaging height: 90mm
- Maximum packaging speed: 25 packages/min
- Air pressure: 0.5Mpa
- Dimensions: 2500x600x1450mm
- The total weight of the machine: is 320kg
- Main material: carbon steel
