

Automatic 4 Heads Lubricating Oil Paint Antifreeze Olive Oil Laundry Detergent Weighing Filling Machine

This fully automatic weighing filling machine is suitable for filling various fluid products in medium and large barrels such as lubricating oil, paint, latex paint, antifreeze, olive oil, laundry detergent, etc. Widely used in food, daily chemical and other industries, it is an ideal equipment for large barrel or large-dose filling.

Main Feature

- ▶ Can digitally display the filling volume, the operation is simple and convenient.
- ▶ Can automatically remove container weight and set net weight to fill.
- ▶ Filling speed can be controlled separately in two different time period, this can effectively cut down foamy during filling and improve filling accuracy.
- ▶ Can realize the anti-dripping function by vacuum back pumping

Parameter

- Power supply: 220/380V
- Power: 2.8kw
- Production capacity: 120-300BPH (based on 10L)
- Filling range: 5-20L
- Filling head number: 4 heads (can be customized)
- Weighing error: $\leq 0.35\%$
- Machine size: 3000×1000×1800mm
- Weight: about 330kg
