

SH-FSFM2 Automatic Servo Vertical Quantitative 2 Lanes Granule Sachet Filling Ultrasonic Sealing Packing Machine

Main Feature

- ▶ This filling sealing machine is designed for packaging powder or small granule into roller film.
- ▶ Equipped with measuring cups, it can fill granules accurately.
- ▶ Using ultrasonic sealing method, it is suitable for non-woven fabric.

Parameter

- Model: SH-FSFM2
- Packing Speed: About 80 bags/minute
- Filling Method: Measuring Cup + Blowing
- Measuring Range: 0.5 g (Customized)
- Bag Size: Width-15 mm, Length-30 mm (Adjustable)
- Sealing Form: Back Seal
- Film Width Range: Maximum 220 mm
- Film Thickness: 0.04–0.09 mm
- Power Supply: 1N+PE / 50HZ / AC220V / 1.3KW
- External Dimensions (L*W*H): 1040*740*1670 mm
- Machine Weight: About 200 kg
