

DC-B4 Automatic PLC Components Electric Quantitative Granule Filling Machine

The DC-B4 Automatic Granule Filling Machine is an intelligent solution specifically designed for free-flowing granular products such as grains, beans, rice, nuts, and pet food. Built with food-grade stainless steel, it features a four-head weighing and dosing system combined with a PLC control unit and touchscreen interface. It's ideal for small pouch or bottle packaging lines in the food, agriculture, and pet product industries.

Technical Parameters

Model	DC-2
Power supply	220V 50/60HZ
Output	0-20 (bottles/min)
Filling accuracy	±0.3%
Filling range	10-3000g
Power	1500W
Electronic scale	2 or 4 (according to your request)
Dimension	850*850*1850 mm
Weight	150Kg

Model	ZX-D
Lift height	1800mm (can be customized)
Power supply	220V 50/60HZ
Hopper	80L (can be customized)
Power	1.5Kw
Output	1000-3000Kg/h
Dimension(mm)	2100*750*2350
Weight	120Kg
