

CZ-01 Economy Auto Weighing Machine With Conveyor

Auto weighing machines with conveyors are designed with safety features to ensure the well-being of operators and prevent accidents. These safety features include emergency stop buttons, interlocks, and sensors that detect any abnormality or obstruction in the Conveyor System. This helps in creating a safe working environment for operators.

In summary, auto weighing machines with conveyors offer increased efficiency, accurate weighing, reduced labor costs, easy integration with production lines, data collection and analysis capabilities, and enhanced safety. These advantages make them a valuable asset in various industries where precise and efficient weighing of products is required.

Technical Parameters

Model	CZ-01
Weighing Range	0-3000g (Up to 6000g)
Precision	$\geq \pm 0.5g$
Capacity (pcs/min)	Max 100 (Up to 200)
