

Triple Roller Mill – STRM

Triple Roller Mill – STRM is used in the preparation of ointments, salves, dough and similar products. The hourly production is from 2 Kgs. to 12 kgs. depending upon the constituency of the material. Three hard stainless still roller, which are 110 mm long, and 50 mm diameter produce the Rolling action.

Two outer rollers are spring supported to eliminate the possibility of damage to the rollers or to the operating mechanism. The space between the rollers is adjustable by turning one thumbscrew.

This Attachment is Suitable to Attached in our Both Main Drive.
