

## ***Automatic Inductor Plastic Bottle Aluminum Foil Sealing Machine MZH-SP***

This automatic inductor plastic bottle Aluminum Foil Sealing Machine widely used in medicine, pesticides, lubricants and cosmetics industry.

### **Details introduced:**

This induction Aluminum Foil Sealing Machine use electromagnetic induction principle, the Automatic Aluminum Foil Sealing Machine makes the bottle and electromagnetic induction aluminum foil in the mobile device will produce high temperature melting aluminum foil, make its glue into the hole, then the bottle is sealed.

### **Technical parameters:**

Power supply	AC220V 50/60Hz
Max power	2500W
Sealing dia (Optional)	Φ15-50mm Φ35-100mm Φ50-120mm
Conveyor Belt speed	8.5M/min
Sealing machine	polyethylene bottle with bottle mouth dia 35mm, bottle bottom dia 40mm
Cooling way	Cold wind
Sealing height	20-350mm
Working way	Continuous working
Material	Stainless steel
Machine dimension (L*W*H)	1300×1250×350(mm)
Packing dimension (L*W*H)	1450×1400×420(mm)
Net Weight	42kg
