

Monoblock Filling and Sealing Machine

This monoblock filling and sealing machine is mainly used for filling, capping, and sealing 30-500ml bottles, and it is the major machine of oral liquid production line.

Reliable straight bottle feeding mode has been designed for it, and it has 6 filling heads and 1 capping head. Box packing mode and container transport should be used for this equipment.

Features:

1. Integrating filling and sealing into one body.
2. Simple structure, stable performance, advanced design, and easy operation with one-button control.
3. Easy maintenance with many detachable components.
4. Convenient to change bottles.

Main Parameters:

Bottle Size	30ml~500ml
Production Capacity	3000~3600 bottle/hour
Rate of Sealing	≥99%
Sealing Method	screw-cap, rolling screw lid or cover spin
Power	2KW
Electric Supply	380V 50hz 3phase
Size	2900×1300×1656mm
